

## We're on top of the World

Local printing company, AlphaGraphics recently swept the board at the International AlphaGraphics Conference.

The conference, which was held in Tucson, Arizona was attended by 4 members of the AlphaGraphics North-East team, along with 500 delegates from the 272 locations around the globe. The conference combined discussions, presentations and networking opportunities. The event concluded with a glittering awards ceremony where AlphaGraphics North-East bagged several of the top prizes.

AlphaGraphics Sunderland was awarded 'Highest Sales Growth' for the 3<sup>rd</sup> year running and the Stockton branch won a number of awards including 'Franchise of the Year'. However the most highly acclaimed awards and the biggest achievement came for the North-East group as a whole when they were awarded 'Highest Sales in the World', which has only previously been awarded to one business in the USA and 'Best Operational Business' in the entire AlphaGraphics global network.

Sean Costigan, Managing Director commented; 'By winning the double of Highest Sales and Best Operational Business we have achieved a massive feat. This has been possible because of the dedication and hard work of the team of staff we have. Our people are key to the success of the business.' Sean went on to say; 'Following the recognition we achieved at the International Conference future plans for the business include building on this success through further growth and investment.'

ENDS
